

THE WOMEN'S LEADERSHIP PROGRAM

SPRING / AUTUMN 2017

For women business leaders who:

- want to lead with greater ease, flow and even better results
- know they have so much more to bring into their leadership

Carla Clarissa

THE WOMEN'S LEADERSHIP PROGRAM

- BENEFITS -

LEADING WITH GREATER EASE, FLOW AND BETTER RESULTS

Many experienced women business leaders find 'something' is holding them back from living and leading fully in their *natural* power.

'The Women's Leadership Program' is designed to tackle these root causes and supports women in mastering their natural leadership presence.

How? Through its unique design, an inspirational community and the leadership and guidance of Carla Clarissa.

WHAT YOU'LL LEARN

- You will come to learn about the power of your feminine energy and how you can use this energy to accomplish more in your life and business with greater ease, flow and better results.

On this journey, you will be guided back to the essence of being a woman, so you can access the powers of your intuition, the wisdom of your heart and the passion of your body at any time.

- You will understand where your radiance and your magnetism comes from and how to 'turn your light on'.
- You will develop your own Personal Leadership Vision and gain clarity on your leadership identity, purpose and goals.
- You will learn to speak up for your ideas and your wisdom, powerfully and authentically.

HELPING WOMEN EXCEL AS LEADERS

Women who have worked with Carla show greater radiance, warmth, focus and experience more freedom.

Carla Clarissa leads and supports women leaders in mastering their natural leadership presence, individually and in groups, during 'The Women's Leadership Program'.

Carla Clarissa's approach is based on a woman's natural power that lives inside of her. You will grow your leadership presence while you bond with kindred business women.

THE WOMEN'S LEADERSHIP PROGRAM

- CONTENT -

STRUCTURE

The program consists of four two-day workshops, typically a Friday and a Saturday running 10.00-17.00 hours, over a four months period.

In between each workshop there is an individual coaching session with Carla Clarissa and a peer coaching group to deepen the understanding. Additional practice material will be given for exercising at home and at work for immediate impact.

DESIGN

The program starts with guiding business women on their journey to wholeness. It is only from her wholeness and self-worth that a woman can become the business leader that she aspires to be. In this program business women dive into the essence of being a woman, and come to an understanding what it is they need, in order for them to lead from their wholeness.

The natural step that follows is gaining understanding about your purpose.

Therefore we continue the journey with developing your Personal Leadership vision. This vision will help you to live and lead more authentically.

In order to make the circle round you will not only receive an understanding of your purpose, but also learn to speak up and live for it. This is where your Leadership Presence comes alive and visible and is able to inspire and engage the people around you.

The program facilitates an inclusive leadership mindset and believes in the power of men and women leading together. Part of this program therefore facilitates a leadership dialogue between female and male leaders in order to foster a better understanding of how they can combine their forces when it comes to leading their organizations.

COMMUNITY OF WOMEN LEADERS

As part of the Program, you will connect with other business women who feel a longing to lead and make a difference, who desire to connect to their natural leadership presence and who want to stay true to who they are. You will be part a community of business women supporting each other!

These are all inspirational women who have chosen to invest in a road less travelled and who know deep down inside that the only way they are going to inspire and engage the people around them is by standing in their own radiance first.

ABOUT CARLA CLARISSA

Carla is the owner and founder of Carla Clarissa 'Unleashing A Woman's Leadership Presence'. She is a successful business woman who now puts all her experience and expertise into developing female leaders and guiding them to wholeness, successful and shining in a so far male dominated business society (www.carlaclarissa.com). Carla previously worked as a management consultant in the fast-moving consumer goods industry and as a business and change leader in the energy sector.

What drives her is the energizing impact that happens when a group of empowered women come together, inspire each other, and stand up in their natural leadership presence. They ignite positive transformations in all areas of their lives. They elevate their families, communities and organisations.

Carla is a graduate of the Nyenrode Business University and studied Coaching for Leadership and Professional Development at The Tavistock Institute. She is connected to the international Women's Leadership Circles (WLC).

"MY PURPOSE IS THAT EVERY WOMAN BUSINESS LEADER KNOWS AND FEELS THAT IT IS SHE THAT INSPIRES CHANGE. THAT IT IS THE FEMININE ENERGY INSIDE HER THAT HAS THE POWER TO INSPIRE AND ENGAGE."
